Sex Equality Law in the European Union: Hervey, Tamara K., O'Keeffe, David: Amazon.com.au: Books

European Union equality and anti-discrimination law were revolutionized by the incorporation of Article 13 into the EC Treaty, adding new anti-discrimination grounds and new possibilities. This comprehensive 2007 volume provides a fresh approach to Article 13 and its directives; it adopts a contextual framework to equality and anti-discrimination law in the European Union. Part I deals with the evolution of Article 13, demographic and social change and the inter-relationship between European

Equality Law and Human Rights. Part II contains expert essays on each of the Article 13 anti-discrimination grounds: sex, racial or ethnic origin, religion or belief, disability, age and sexual orientation, with common themes weaving throughout. This book will be of interest to everyone concerned with combating discrimination, academics, NGOs, lawyers, human resource professionals, employers, employees, research students and many others in the European Union and beyond.

This volume is an examination of European Community sex equality law, as interpreted by the Court of Justice. It contains a thorough analysis of the basic principles of Community law in the context of sex equality claims and a comprehensive discussion of equal pay, equal treatment and equality.

EU Anti-Discrimination Law provides a detailed and critical analysis of the corpus of European Union law prohibiting discrimination on the grounds of sex, racial or ethnic origin, religion or belief, disability, age, and sexual orientation. It takes into account the changes brought about by the Treaty of Lisbon and contains a thorough examination of the relevant case law of the Court of Justice of the EU. The book examines the background to the legislation and explains the essential characteristics and doctrines of EU law and their relevancy to the topic of anti-discrimination. It also analyses the increasingly significant general principles of EU law, the Charter of Fundamental Rights, and the relevant law flowing from the European Convention on Human Rights. The key concepts contained in anti-discrimination law are subjected to close scrutiny. The substantive provisions of the law on equal pay and the workplace and non-workplace provisions of the governing Directives are similarly examined, as are the numerous exceptions permitted to them. The complex rules governing the rights of

pregnant women and those who have recently given birth are dealt with comprehensively and in a separate chapter. Equality in social security schemes is also discussed. The book concludes with an assessment of the practical utility of the existing law and the current proposals for its reform.

In May 2004, after bringing their legislation into accordance with EU regulations, ten more countries joined the European Union. The contributors to this volume assess the impact of this historical development on gender relations in the new and old EU member states. Instead of focusing on either western or eastern Europe, this book investigates the similarities and differences in diverse parts of Europe. Although initially limited, gender equality was part of the original framework of the European Union, an organization often more open than national governments to feminist demands, as this volume illustrates with case studies from eastern and western Europe. The enlargement process thus provides some important policy instruments for increasing equality between men and women.

This book considers the European Union as a project with a major antidiscrimination goal, which is important to remember at a time of increasing resentment against particularly exposed groups, especially migrants, refugees, members of ethnic or religious minorities and LGBTI persons. While equality and non-discrimination have long been core principles of the international community as a whole, as is made obvious by the UN Charter and the Universal Declaration of Human Rights, they have shaped European integration in a particular way. The concepts of diversity, pluralism and equality have always been inherent in that process, the EU being virtually founded on the values of equality and non-discrimination. The Charter of Fundamental Rights of the EU contains the most modern and extensive catalogue of prohibited

grounds of discrimination, supplementing the catalogue enshrined in the European Convention on Human Rights. EU law has given new impulses to antidiscrimination law both within Europe and beyond. The contributions to this book focus on how effective and credible the EU has been in combatting discrimination inside and outside Europe. The authors present different (mostly legal) aspects of that topic and examine them from various intra- and extra-European angles.

Dit boek beschrijft en verduidelijkt het EG-recht betreffende seksdiscriminatie, een uiterst ingewikkeld, technisch en gedetailleerd rechtsgebied. Ook door het compromis-karakter van menige regel brengen de in dit boek behandelde richtlijnen uitzonderlijke complexe interpretatieproblemen met zich mee, zoals b.v. het ogenschijnlijk simpele art. 119 van het EEG verdrag Na twee algemene hoofdstukken, over de concepten discriminatie en gelijkheid in het gemeenschapsrecht en over de gevolgen van dat recht voor individuen, komen aan de orde gelijk loon (art. 119 en de richtlijn) en de richtlijnen betreffende gelijke behandeling en sociale zekerheid. Vervolgens wordt van de door het EG Hof behandelde zaken nagegaan of en hoe daarop door de overtredende staten is gereageerd.
