Building upon Serway and Jewetta's solid foundation in the modern classic text, Physics for Scientists and Engineers, this first Asia-Pacific edition of Physics is a practical and engaging introduction to Physics. Using international and local case studies and worked examples to add to the concise language and high quality artwork, this new regional edition further engages students and highlights the relevance of this discipline to their learning and lives.

A classroom textbook covering the physical sciences discusses such topics as matter, the atom, motion and forces, and the universe.
