Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

This repair manual covers Suzuki SV650 and SV650S 1999 to 2005.

Anyone can learn how to draw with this simple step-by-step guide! The book begins with instructions for drawing basic shapes and an introduction to color before jumping into projects featuring a variety of subjects. Full color. 8 1/2 x 11.

A memoir by the mustachioed baseball pitcher who went playing rocky, trash-ridden fields in Castro's Cuba to becoming a Boston Red Sox legend. Luis Tiant is one of the most charismatic and accomplished players in Boston Red Sox and Major League Baseball history. With a barrel-chested physique and a Fu Manchu mustache, Tiant may not have looked like the lean, sculpted aces he usually played against, but nobody was a tougher competitor on the diamond, and few were as successful. There may be no more qualified twentieth-century pitcher not yet enshrined in the National Baseball Hall of Fame. His big-league dreams came at a price: racism in the Deep South and the Boston suburbs, and nearly fifteen years separated from a family held captive in Castro's Cuba. But baseball also delivered World Series stardom and a heroic return to his island home after close to a half-century of forced exile. The man whose name—"El Tiante"—became a Fenway Park battle cry has never fully shared his tale in his own words, until now. In *Son of Havana*, Tiant puts his heart on his sleeve and describes his road from torn-up fields in Havana to the pristine lawns of major league ballparks. Readers will share Tiant's pride when appeals by a pair of US senators to baseball-fanatic Castro secure freedom for Luis's parents to fly to Boston and witness the 1975 World Series glory of their child. And readers will join the big-league ballplayers for their spring 2016 exhibition game in Havana, when Tiant—a living link to the earliest, scariest days of the Castro regime—threw out the first pitch.

A "thoroughly researched, stranger-than-fiction" history of the world's tiniest rebel nation, filled with intrigue, armed battles, and radio pirates (Robert Jobson, author of *Prince Philip's Century*). In 1967, a retired army major and self-made millionaire named Paddy Roy Bates cemented his family's place in history when he inaugurated himself ruler of the Principality of Sealand, a tiny dominion of the high seas. And so began the peculiar story of the world's most stubborn micronation on a World War II anti-aircraft gun platform off the British coast. Sealand is the raucous tale of how a rogue adventurer seized the disused Maunsell Sea Fort from pirate radio broadcasters, settled his eccentric family on it, and defended their tiny kingdom from UK government officials and armed mercenaries for half a century. Incorporating original interviews with surviving Sealand royals, Dylan Taylor-Lehman recounts the battles and schemes as Roy and his crew engaged with diplomats, entertained purveyors of pirate radio and TV, and even thwarted an attempted coup that saw the Prince Regent taken hostage. Incredibly, more than fifty years later, the self-proclaimed independent nation still stands—replete with its own constitution, national flag and anthem, currency, and passports. Featuring rare vintage photographs of the Bates clan and their unusual enterprises, this account of a dissident family and their outrageous attempt to build a sovereign kingdom on an isolated platform in shark-infested waters is the stuff of legend. "Memorable . . . This idiosyncratic history entertains." —*Publishers Weekly* "Endlessly captivating, like a thriller, and filled with crisp, evocative writing. Now, you'll have to excuse me, I'm visiting the principality to become an official 'Lord of Sealand.'" —Bob Batchelor, author of *The Bourbon King*
