Applied statistics text updated to be consistent with SPSS version 15, ideal for classroom use or self study.

The first text to focus on the application of click chemistry to glycoscience, this book discusses the therapeutic and pharmacological aspects of carbohydrate click chemistry and includes chapters on the concept's background, as well as its industrial applications in areas such as drug discovery. The book reflects the novel methodologies and strategies of this concept. Each chapter describes new approaches, ideas, consequences, and applications deriving from the introduction of click processes. This provides an essential reference for a wide range of researchers and graduate-level students.

Industrial Statistics with MINITAB demonstrates the use of MINITAB as a tool for performing statistical analysis in an industrial context. This book covers introductory industrial statistics, exploring the most commonly used techniques alongside those that serve to give an overview of more complex issues. A plethora of examples in MINITAB are featured along with case studies for each of the statistical techniques presented. Industrial Statistics with MINITAB: Provides comprehensive coverage of user-friendly practical guidance to the essential statistical methods applied in industry. Explores statistical techniques and how they can be used effectively with the help of MINITAB 16. Contains extensive illustrative examples and case studies throughout and assumes no previous statistical knowledge. Emphasises data graphics and visualization, and the most used industrial statistical tools, such as Statistical Process Control and Design of Experiments. Is supported by an accompanying website featuring case studies and the corresponding datasets. Six Sigma Green Belts and Black Belts will find explanations and examples of the most relevant techniques in DMAIC projects. The book can also be used as quick reference enabling the reader to be confident enough to explore other MINITAB capabilities.

I had a dream like so many people do to start a new life in a new country. I decided to do more than just dream about it. I decided to give up my life in England and try and live a new life in Thailand. I wrote about my adventure in the book 'My Thai Story' but the story was only half told. This is the long awaited sequel to that book. My Thai Story II completes my story. It tells how my dreams found a conclusion. It takes you step by step on the adventure that I had set out on. Could a farang like me make it in 'The Land of Smiles'? This book will tell you what happened and how it happened. This is the conclusion to my very own Thai story.

Fundamentals of Crime Mapping introduces the topic of crime mapping and the history of GIS in law enforcement. This valuable text includes a workbook for hands-on instruction. Special topics discussed include: an up-to-date discussion of the current crime trends in rural and urban areas, the major ecological theories of crime, the notion of geographic profiling, empirical research using crime mapping tools, basic mapping terminology, and more!

Just as Danny O'Brien starts to settle down to peace and quiet and a happy married life in Isaan in the north east of Thailand a serial killer starts terrorizing the beautiful tropical holiday island of Phuket, targeting the sex workers around the bar scene. When ex Detective Sergeant Danny O'Brien is drafted in as a Detective Consultant on the case he uncovers further murders from Bangkok to Chiang Mai, going back over a ten year period. He makes more enemies than friends in his attempts to find the murderer. Danny could not imagine the impact this case will have on his life and his future. His personal journey is touched by great happiness and overwhelming sadness, but he has a case to solve and people are depending on him. Danny sets out to trap the killer unaware of the danger is own life is in. A race against time in a game of cat and mouse that he can't afford to lose.

Present the full range of analytics -- from descriptive and predictive to prescriptive analytics -- with Camm/Cochran/Fry/Ohlmann's market-leading BUSINESS ANALYTICS, 4E. Clear, step-by-step instructions teach students how to use Excel, Tableau, R and JMP Pro to solve more advanced analytics concepts. As instructor, you have the flexibility to choose your preferred software for teaching concepts. Extensive solutions to problems and cases save grading time, while providing students with critical practice. This edition covers topics beyond the traditional quantitative concepts, such as data visualization and data mining, which are increasingly important in today's analytical problem solving. In addition, MindTap and WebAssign customizable digital course solutions offer an interactive eBook, auto-graded exercises from the printed book, algorithmic practice problems with solutions and Exploring Analytics visualizations to strengthen students' understanding of course concepts.
