House of Bush, House of Saud cover. House of Bush, House of Saud: The Secret Relationship Between the World's Two Most Powerful Dynasties is a 2004 book by Craig Unger that explores the relationship between the Saudi Royal Family and the Bush extended political family. Unger asserts that the groundwork for today's terrorist movements and the modern wars that have sprung up about them was unintentionally laid more than 30 years ago with a series of business deals between the ruling Saudis and ...

Bush House is a Grade II listed building at the southern end of Kingsway between Aldwych and the Strand in London. It was conceived as a major new trade centre by American industrialist Irving T. Bush, and commissioned, designed, funded, and constructed under his direction. The design was approved in 1919, work began in 1925, and was completed in 1935. Erected in stages, by 1929 Bush House was already declared the "most expensive building in the world". Now mainly part of the Strand Campus of Ki

and explains its impact on American foreign policy, business, and national security. House of Bush, House of Saud begins with a politically explosive question: How is it that two days after 9/11, when U.S. air traffic was tightly restricted, 140 Saudis, many immediate kin to Osama Bin Laden, were permitted to leave the country without being questioned by U.S. intelligence? The answer lies in a hidden relationship that began in the 1970s, when the oil-rich House of Saud began courting American politicians in a bid for military protection, influence, and investment opportunity. With the Bush family, the Saudis hit a gusher -- direct access to presidents Reagan, George H.W. Bush, and George W. Bush. To trace the amazing weave of Saud- Bush connections, Unger interviewed three former directors of the CIA, top Saudi and Israeli intelligence officials, and more than one hundred other sources. His access to major players is unparalleled and often exclusive -- including executives at the Carlyle Group, the giant investment firm where the House of Bush and the House of Saud each has a major stake. Like Bob Woodward's *The Veil*, Unger's *House of Bush, House of Saud* features unprecedented reportage; like Michael Moore's *Dude, Where's My Country?* Unger's book offers a political counter-narrative to official explanations; this deeply sourced account has already been cited by Senators Hillary Rodham Clinton and Charles Schumer, and sets 9/11, the two Gulf Wars, and the ongoing Middle East crisis in a new context: What really happened when America's most powerful political family became seduced by its Saudi counterparts?

The presidency of George W. Bush has led to the worst foreign policy decision in the history of the United States -- the bloody, unwinnable war in Iraq. How did this happen? Bush's fateful decision was rooted in events that began decades ago, and until now this story has never been fully told. From Craig Unger, the author of the bestseller *House of Bush, House of Saud*, comes a comprehensive, deeply sourced, and chilling account of the secret relationship between neoconservative policy makers and the Christian Right, and how they assaulted the most vital safeguards of America's constitutional democracy while pushing the country into the catastrophic quagmire in the Middle East that is getting worse day by day. Among the powerful revelations in this book: Why George W. Bush ignored the sage advice of his father, George H.W. Bush, and took America into war. How Bush was convinced he was doing God's will. How Vice President Dick Cheney manipulated George W. Bush, disabled his enemies within the administration, and relentlessly pressed for an attack on Iraq. Which veteran government official, with the assent of the president's father, protested passionately that the Bush administration was making a catastrophic mistake -- and was ignored. How information from forged documents that had already been discredited fourteen times by various intelligence agencies found its way into President Bush's State of the Union address in which he made the case for war with Iraq. How Cheney and the neocons assembled a shadow national security apparatus and created a disinformation pipeline to mislead America and start the war. A seasoned, award-winning investigative reporter connected to many back-channel political and intelligence sources, Craig Unger knows how to get the big story -- and this one is his most explosive yet. Through scores of interviews with figures in the Christian Right, the neoconservative movement, the Bush administration, and sources close to the Bush family, as well as intelligence agents in the CIA, the Pentagon, and Israel, Unger shows how the Bush administration's certainty that it could bend history to its will has carried America into the disastrous war in Iraq, dooming Bush's presidency to failure and costing America thousands of lives and trillions of dollars. Far from ensuring our security, the Iraq War will be seen as a great strategic pivot point in history that could ignite wider war in the Middle East, particularly in Iran. Provocative, timely, and disturbing, *The Fall of the House of Bush* stands as the most comprehensive and dramatic account of how and why George W. Bush took America to war in Iraq.

Does the Da Vinci Code Holy Grail Family Lead to the HOUSE OF BUSH?? Who are the Ancestors of the House of Bush? From Europe From Mideast From Asia Will the House of Bush Rise Up to Rule? How far back do these ancestors go Did these ancestors include any important people, kings, royal lines Were there any Heroes, any winners of battles, wars, builders of countries Builders of freedom and democracy? The former White House press secretary examines how and why the Bush administration went awry, providing a look at George W. Bush and his top aides in terms of such crises as Hurricane Katrina, the Iraq war, and Washington's political infighting.

A senior White House correspondent presents a history of the Bush and Cheney White House years that shares anecdotes by more than two hundred insiders to explore the inner conflicts that shaped the handling of significant events.

THE NEW YORK TIMES BESTSELLER “ The story Unger weaves with those earlier accounts and his original reporting is fresh, illuminating and more alarming than the intelligence channel described in the Steele dossier. ” —The Washington Post House of Trump, House of Putin offers the first comprehensive investigation into the decades-long relationship among Donald Trump, Vladimir Putin, and the Russian Mafia that ultimately helped win Trump the White House. It is a chilling story that begins in the 1970s, when Trump made his first splash in the booming, money-drenched world of New York real estate, and ends with Trump ’ s inauguration as president of the United States. That moment was the culmination of Vladimir Putin ’ s long mission to undermine Western democracy, a mission that he and his hand-selected group of oligarchs and Mafia kingpins had ensnared Trump in, starting more than twenty years ago with the massive bailout of a string of sensational Trump hotel and casino failures in Atlantic City. This book confirms the most incredible American paranoidias about Russian malevolence. To most, it will be a hair-raising revelation that the Cold War did not end in 1991—that it merely evolved, with Trump ’ s apartments offering the perfect vehicle for billions of dollars to leave the collapsing Soviet Union. In House of Trump, House of Putin, Craig Unger methodically traces the deep-rooted alliance between the highest echelons of American political operatives and the biggest players in the frightening underworld of the Russian Mafia. He traces Donald Trump ’ s sordid ascent from foundering real estate tycoon to leader of the free world. He traces Russia ’ s phoenix like rise from the ashes of the post – Cold War Soviet Union as well as its ceaseless covert efforts to retaliate against the West and reclaim its status as a global superpower. Without Trump, Russia would have lacked a key component in its attempts to return to imperial greatness. Without Russia, Trump would not be president. This essential book is crucial to understanding the real powers at play in the shadows of today ’ s world. The appearance of key figures in this book—Paul Manafort, Michael Cohen, and Felix Sater to name a few—ring with haunting significance in the wake of Robert Mueller ’ s report and as others continue to close in on the truth.

At last, former Under Secretary of Homeland Security Michael Brown—infamously praised by President George W. Bush for doing a "heckuva job" in the wake of Hurricane Katrina—tells his side of the response to one of the greatest natural disasters to occur in the United States. Without making excuses for anyone, least of all the President of the United States or himself, Brown describes in detail what ultimately turned out to be the largest federal response to a natural disaster in U.S. history.

Military operations in Afghanistan and Iraq consumed so much attention during his presidency that few people appreciated that George W. Bush was also an activist on the home front. Despite limited public support, and while confronting a deeply divided Congress, Bush engineered and implemented reforms of public policy on a wide range of issues: taxes, education, health care, energy, environment, and regulatory reform. In *Bush on the Home Front*, former Bush White House official and academic John D. Graham analyzes Bush ' s successes in these areas and setbacks in other areas such as Social Security and immigration reform. Graham provides valuable insights into how future presidents can shape U.S. domestic policy while facing continuing partisan polarization.

In this powerful new collection of oil paintings and stories, President George W. Bush spotlights the inspiring journeys of America ' s immigrants and the contributions they make to the life and prosperity of our nation. The issue of immigration stirs intense emotions today, as it has throughout much of American history. But what gets lost in the debates about policy are the stories of immigrants themselves, the people who are drawn to America by its promise of economic opportunity and political and religious freedom—and who strengthen our nation in countless ways. In the tradition of *Portraits of Courage*, President Bush ' s #1 New York Times bestseller, *Out of Many, One* brings together forty-three full-color portraits of men and women who have immigrated to the United States, alongside stirring stories of the unique ways all of them are pursuing the American Dream. Featuring men and women from thirty-five countries and nearly every region of the world, *Out of Many, One* shows how hard work, strong values, dreams, and determination know no borders or boundaries and how immigrants embody values that are often viewed as distinctly American: optimism and gratitude, a willingness to strive and to risk, a deep sense of patriotism, and a spirit of self-reliance that runs deep in our immigrant heritage. In these pages, we meet a North Korean refugee fighting for human rights, a Dallas-based CEO who crossed the Rio Grande from Mexico at age seventeen, and a NASA engineer who as a girl in Nigeria dreamed of coming to America, along with notable figures from business, the military, sports, and entertainment. President Bush captures their faces and stories in striking detail, bringing depth to our understanding of who immigrants are, the challenges they face on their paths to citizenship, and the lessons they can teach us about our country ' s character. As the stories unfold in this vibrant book, readers will gain a better appreciation for the humanity behind one of our most pressing policy issues and the countless ways in which America, through its tradition of welcoming newcomers, has been strengthened by those who have come here in search of a better life.

Craig Unger begins his *House of Bush House of Saud*, a massive seller in the US likened to *All the President's Men*, with an explosive question: how is it that two days after the attack on the World Trade Centre, when U.S. air traffic was tightly restricted, 140 Saudis, many immediate kin to Osama Bin Laden, were permitted to leave the country without being questioned by U.S. intelligence? The answer lies in a hidden relationship that began in the 1970s, when the oil-rich House of Saud began courting American politicians in a bid for military protection, influence, and investment opportunity. With the Bush family, the Saudis hit a gusher - direct access to presidents Reagan, George H.W. Bush, and George W. Bush. To trace the amazing weave of Saud-Bush connections, Unger interviewed three former directors of the CIA, top Saudi and Israeli intelligence officials, and more than one hundred other sources. His access to major players is unparalleled and often exclusive - including executives at the Carlyle Group, the giant investment firm where the House of Bush and the House of Saud each has a major stake.
