your way out of the forest, you'll be forced to spend a few days in the forest while waiting for help or trying to figure out how to get out. This means that the only way you can be alive and healthy when help arrives is by knowing how to survive in the forest. Unlike deserts and dry areas, forests are characterized by heavy rains and mud throughout the year. In Polar Regions, temperatures in the forest are always extremely low and may freeze you to death. With these harsh conditions, it is normally very difficult to move around while in a forest. It is therefore up to you to make
