Neoliberal globalization is in deep crisis. This crisis is manifested on a global scale and embodies a number of fundamental contradictions, a central one of which is the global rise of authoritarianism and fascism. This emergent form of authoritarianism is a right-wing reaction to the problems generated by globalization supported and funded by some of the largest and most powerful corporations in their assault against social movements on the left to prevent the emergence of socialism against global capitalism. As the crisis of neoliberal global capitalism unfolds, and as we move to the brink of another economic crisis and the threat of war, global capitalism is once again resorting to authoritarianism and fascism to maintain its power. This book addresses this vital question in comparative-historical perspective and provides a series of case studies around the world that serve as a warning against the impending rise of fascism in the 21st century.

In the end, love is more important than everything and it will conquer and overcome anything. Or that's how Damon saw it, anyway. Damon wanted a book that talked a lot about love. Damon Courtenay died on the morning of April Fool's Day. In this tribute to his son, Bryce Courtenay lays bare the suffering behind this young man's life. Damon's story is one of lifelong struggle, his love for Celeste, the compassion of family, and a fight to the end for integrity. A testimony to the power of love, April Fool's Day is also about understanding: how when we confront our worst, we can become our best. This life-affirming book will change the way you think.
