Does Jungian Psychology intrigue you, but you're not sure how to apply it to your life or therapeutic practice if you are a therapist? This book written by Theresa Bauer, LPC, CAC III and Elizabeth Cox, M.A. outlines theories and techniques developed by Charles Bebeau, Ph.D. of the Avalon Jungian Archetypal Institute in Boulder, Colorado. Dr. Bebeau developed his theory of the full maturation process of the individual through 12 archetypes and the alchemical process based on Carl Jung's work. There are 24 color illustrations of the archetypes. Astrology is the oldest art practiced by ancient people, including the Hebrews. It was originally part of alchemy and studied extensively by Carl Jung. Dr. Bebeau has refined this work and made it possible to pick out your ruling archetypes using an astrological chart. We all have 4-5-6 ruling archetypes making us unique individuals. The last section of the book explains how to do this, but for the people who don't understand astrology or want to, it is
