This revised and enhanced book examines the role of finance in supporting other functional areas while fostering an understanding of how financial decisions can create value. Corporate Finance covers areas related to estimating divisional cost of capital; executing a financing strategy; establishing debt and dividend policies consistent with the company's strategy and environment; choosing between dividends and stock repurchases; managing high growth and managing working capital. Its new topics include: - Corporate Financial Flexibility (Real options) - New Financial Instruments - Project Finance - Acquisitions and Control - Performance Measurement and Incentive Compensation The goal of this book is to provide a thorough understanding of how and why firms make their financial decisions the way they do and their impact on shareholder value. The central theme of the book is Value Based Management, which assumes that maximizing shareholder value is the governing objective of a firm. Each chapter of this new edition has detailed and real-life cases to help students easily understand and grasp concepts. The author has also provided the case-map of the Harvard Business School to make this book more user-friendly in classrooms. The inclusion of several new topics/cases, extensive pedagogical tools and a finance-for-non-finance approach make this book ideal for MBA/CA/CFA/ICWA students and executive education programs.

In Business Environment, A. C. Fernando integrates concepts with real-world situations and the most recent data to help students grasp complex economic concepts, a clear understanding of which is required to comprehend the various facets of business

This broad-ranging volume fundamentally covers all the variable factors of development and advancement of the promising technology of FTTH, which will be the key broadband telecom access technique to the end users of the future.

The Standard for Business Analysis - First Edition is a new PMI foundational standard, developed as a basis for business analysis for portfolio, program, and project management. This standard illustrates how project management processes and business analysis processes are complementary activities, where the primary focus of project management processes is the project and the primary focus of business analysis processes is the product. This is a process-based standard, aligned with A Guide to the Project Management Body of Knowledge (PMBOK® Guide) - Sixth Edition, and to be used as a standard framework contributing to the business analysis body of knowledge.

What if co-incidences in our lives are nothing but a result of a dice thrown by some higher being? What if, to the heavens, our lives are nothing but rows of dominos ready to be put into action? What if we all are mere pieces of pawns carefully played upon by a cosmic chessmaster? 'That Thing About You' is an uncommon story of a common man rejected in love. This is a story of a man walking on the path of self-discovery. Subodh, a regular IT employee, is perceived as an immature man by everyone, but he isn't bothered until his love interest rejects him citing the same. Although dejected and crestfallen, he soon befriends an unusual, mysterious woman who knows everything about him and seems to have all the answers. Soon, his life goes through a lot of unexpected turns—from doubting his sanity and visiting a psychologist to a failed arranged marriage attempt made by his parents. Everything in his life seems to be in fast-forward mode. One thing that does not change, however, is this unusual “friend” of his who refuses to reveal her identity and chooses to appear at her whim. Who is this mysterious woman? Why is she prying into his life? Where will this strange friendship lead him? Is some impending danger awaiting Subodh or is it something else altogether?
